NOTICE TO CONSUMERS OF NUUANU AND UPPER MAKIKI WATERS.

Until further notice the use of water for IRRIGATION PURPOSES upon the High Pressure systems, more particularly described as that portion of the system lying on both sides of Nuuanu Avenue and mauka of School and Lusitana Streets, Thurston Avenue, Lunailo Street, Hastings Street, Manoa Road and including Manoa and College Hills Tracts is hereby strictly prohibited. This regulation will be rigidly enforced, as the Water Works Inspectors have been instructed to shut off all services where they find irrigation. The services so shut off will not be turned on again until all costs and expenses connected therewith shall have first been paid.

DRESSY FOOTWEAR FOR BLACK GOWN.

Not because black gowns are extremely fashionable, but because the feet usually look best in that dusky color, suede, oze, patent and glossy black kid pumps are very much worn. Some of these are highly made and exceedingly comfortable.

White pumps for the street are chiefly of canvas and oze, on the models of both the practical and the semi-dressy types. They are usually finished merely with stitching and have tan leather heels or they are bound and trimmed with the same material.

Where a costume combines white and khaki, however, the white pumps are sometimes trimmed with yellowish-brown kids, but they are never worn with any other costume, as they would render the feet unpleasantly conspicuous.

Other novelties which are wonderfully chic, but too decided in character for the city's streets, are those of gray oze with scarlet heels and buckle, of vivid green in combination with white calfskin and light tan, of pearl gray with large mother-of-pearl buckles and of champagne or maize suede with black trimmings and buckles.

Satins are to retain their prestige throughout the autumn and winter and manufacturers are launching several new varieties of this popular material. Satin directoire, marvelously soft and supple, is one of the best of these variations upon the satin theme and is, as the name indicates, particularly designed to meet the demands of the clinging directoire modes.

A wool-backed satin, very supple and light of weight, such as has been numbered among the liberty materials for several seasons past, is put forward among the autumn novelties as Egyptian satin. Being of double width and of considerable warmth this material is especially suited to coat and cape purposes.

The two-button glove is assured of a successful season through the advent of the long sleeve, and fair woman's glove bill is likely to be smaller this winter than it has been within recent years.

It will not be unusual this winter to see tight sleeves that fasten from the very top of arm to the wrist. The style will be carried out in smart coats and in sheer afternoon or evening house frocks.

Buttons of all kinds, but particularly those covered with satin or with the costume material, are being used more lavishly than ever upon the early autumn models.

The directoire waistcoat promises to last over another season and provision has been made for very original and elegant effects in this regard.

Bordure satins follow in the wake of the beautiful bordered summer stuffs and some exquisite effects are secured in this line of materials.

For street wear the invisible plaid panama skirt will be a favorite the coming season.

Citron, sulphur, and a sickly tone of green known as verdater will make many afternoon frocks.

All shades of yellow will be used, but burnt gold and golden brown will enjoy especial favor.

Scabiose, a nondescript hue of lilac, will be very much seen, especially in accessories.

Blue comes first and the rich dark tone navy will be employed in many smart gowns.

The intensely dark dyes of brown will achieve many of the fashionable street suits.

Khaki is still largely used in trimmings and all smoked effects will be a la mode.

Black will be much seen both in dress and in every-day gowns. The half-tones of all colors lead.

If you have an old bicycle pump around the house, you can put it to good service when next you clean your sewing machine. Tiny pieces of lint, threads and the like can be blown out of the crevices and the machine cleaned in much less time. An atomizer can often be used for the same purpose.

To clean white shoes put a tablespoonful of paris whitening in a saucer, mix with warm water to the consistency of thick cream, adding a little glue. Apply with a nail brush and rub it well into the shoes.

Don't use soap for varnished paper. Instead, try half a pint of paraffin in a pailful of warm water. Dip a woolen cloth into this, wring it fairly dry and with it wash the walls. Polish with a dry linen cloth.

Wealth of hair is wealth indeed, especially to a woman. If your hair falls out, is too thin, or is losing its color, use

Ayer's Hair Vigor
It will remove all dandruff, and will give you thick, long, glossy, and beautiful hair. Accept no substitute. Be sure you get Ayer's Hair Vigor, and preserve the richness and luxuriance of your hair to an advanced period of life.
